

EuroSynapses is a Consulting and Educational Institute offering direct link to:

- clinical and scientific professional development for Health Care Staff.
- undergraduate and postgraduate University education.

EuroSynapses is the **FIRST** institute in Europe combining study planning and professional career

EuroSynapses helps students to make the best choice based on their potential and interest. After graduation we can propose work opportunities in world class hospitals.

EuroSynapses provides a holistic set of support and services to Medical Staff & Allied Health Professionals, through the whole path of their application. From exploring the perspectives of making a career abroad until the final Hospital placement.

EuroSynapses offers to its candidates, postgraduate courses (MA, MSc, MPhil, MBA or PhD) and training through our partner Universities and Research Centers worldwide.

Our commitment is to help motivated people to make the best choice based on their capacity and the existing perspectives. We will help them to maximize their potential by fostering the world-wide mobility
