Our principal municipalities are Ale, Kungälv, Stenungsund, Tjörn and Kärra-Rödbo with 120000 people.

The area is mostly countryside with a few small towns.

There are 42 beds per 100 000 inhabitants (in the age of 15 - 74 yers old).

The deparment consist of two parts: indoor and outdoor care. The indoor care is situated mainly at Kungälv's sjukhus apart from "Elfvebackens rehabilitation center".

As part of the hospital we have four nursing wards each with specilizations in psychosis, addiction disorders and 2 wards specialized in general psychiatry.

The outdoor care is situated in the towns of Ale, Kungälv and Stenungsund. The clinics in Kungälv and Stenungsund are parted in two, one is mainly profiled to see patients with psychosis and the consulting-rooms is general psychiatry. The most common diagnosis at the clinics are affective disorder, OCD, PD, social fobia, eating disorders.

We admit about 4000 individuals in a year and they receive about 22 000 visits during this time.

Requirements:

- Specialization in General Psychiatry
- Ability to complete the Swedish intensive language course
- Personal qualities:
 - * Very good communication skills
 - * Concerned with quality and innovation
 - Good collaboration skills with patients and staff

Salary for specialist doctors varies between 64 000 – 83 000 SEK (40h/week) depending on experience and qualifications.

We offer

- Permanent contract after 6 months of the trial period
- Attractive salary
- Adaptation period upon arrival in Sweden
- Intensive, free of charge language course online or stationary
- Flights to the Paragona Campus and back
- Online language course for spouses
- Support with authorization of your specialization in Sweden
